

COMMUNITY COUNCIL MEETING MINUTES

MARCH 25,2020

Due to the current situation of COVID-19 and the recommendations that have been placed on meetings in groups, our Community Council meeting was held through on-line attendance with web-ex. The public was notified and also invited to jump on and attend if they so desired. Those in attendance were John Hughes; principal, Gayla Luke secretary, council members, Pam Howard, Steeny Larsen, Chris Hennes, Janakae Magann- teacher.

Items on agenda for discussion as follows:

WELCOME ALL COUNCIL MEMBERS

UPDATE ON STATE TESTING

FINAL APPROVAL OF 2020-2021 LAND TRUST PLAN-all unanimously agreed and voted on plan that had been previously presented.

OTHER COUNCIL BUSINESS-Council briefly discussed our unique situation amid the COVID-19 pandemic; such as how well our teachers and staff have adapted to best practice for continued student learning. Such as setting up home learning packets, online videos and teaching helps and many, many other ways that they have gone above and beyond to make this a success experience. The result and reaction back from the parents and community has over all been very supportive. This has all come together to make a very smooth transition in what could have been very difficult and stressful. It is an ongoing effort as the needs of the situation changes. But generally speaking everyone has worked together and has been trying their best to follow all rules and instructions for the best outcome possible. We have an amazing faculty, student body, and public community that is more than willing to step up and help each other out. It has been a very interesting experience that of course we all want to be over as soon as possible. So that we can then go back to school as we know it and reach the best needs of our students to help them successfully learn and grow.
